

I am a subscriber to to XM Satallite Radio and enjoy the freedom that I have with it. XM Satellite Radio and its traffic and weather channels are great stations, that is why I CHOOSE TO PAY for the service. In fact I have more then one satallite receiver. I love the variety and quality that are not available elsewhere. My family and I travel quite frequently and we have the ability to travel from town to town or state to state and still get to hear our favorite stations. XM Satallite Radio provides hours of pleasure to my whole family. I PAY FOR THIS SERVICE and it is not up to the National Association of Broadcasters to dictate what I am permitted to hear. I strongly urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that my family and I demand and deserve. This is a free country and we have our rights. What makes XM Satallite Radio different from digital cable or Direct TV. They provide many similar services yet I do not hear anyone complaining about that.
